

SAMPLE MCAT 515 WORKSHOP SYLLABUS

WORKSHOP 1

Topics

- Amino Acids & Proteins
- Enzymes
- AAMC Targeted Practice

Subjects

Biochemistry

LESSON 1

Topics

- Welcome to the course
- How to read CARS and Science passages
- Fitting MCAT into your life
- How to study MCAT science

Subjects

- Critical Analysis & Reasoning Skills Biology
- Biochemistry · General Chemistry

WORKSHOP 2

Topics

- Genetic Inheritance & Population Genetics
- Force & Kinematics
- AAMC Targeted Practice

Subjects

Physics · Biology

WORKSHOP 3

Topics

- Social Effects & Interactions
- Membrane Structure & Transport
- AAMC Targeted Practice

Subjects

Psychology & Sociology
 Biology

LESSON 2

Topics

- Opinions in CARS passages
- $\boldsymbol{\cdot}$ Math and formulas on the MCAT

Subjects

- Critical Analysis & Reasoning Skills Biology
- Physics · Psychology & Sociology

LESSON 3

Topics

- Strategies for analyzing figures
- How to review with LLJ
- In-class CARS mini drill

Subjects

- Critical Analysis & Reasoning Skills Biology
- Physics · Biochemistry · Psychology & Sociology

WORKSHOP 4

Topics

- Social Structures & Groups
- Experimental Design
- AAMC Targeted Practice

Subjects

Psychology & Sociology

LESSON 4

Topics

- · Identifying arguments in CARS
- Recognizing key elements of experimental design in the sciences

Subjects

- Critical Analysis & Reasoning Skills
- General Chemistry
 Biology

WORKSHOP 5

Topics

- Cognition & Consciousness
- Force, Work, Power & Energy
- AAMC Targeted Practice

Subjects

Psychology & Sociology
 Physics

LESSON 5

Topics

- Strategic approaches for tackling questions in both CARS and the Sciences
- Preparing to take a full-length exam

Subjects

- Critical Analysis & Reasoning Skills Physics
- Psychology & Sociology

WORKSHOP 6

Topics

- Bonding & Chemical Reactions
- Periodic Table, Lewis Structure, VSEPR
- AAMC Targeted Practice

Subjects

General Chemistry

WORKSHOP 7

Topics

- Genes & Gene Expression
- Learning & Memory
- AAMC Targeted Practice

Subjects

Psychology & Sociology
 Biology

LESSON 6

Topics

- Analyzing arguments in CARS passages
- How to use course analytics
- Reviewing a full-length exam and creating an LLJ

Subjects

- Critical Analysis & Reasoning Skills
- Physics · General Chemistry

LESSON 7

Topics

- Pacing in sciences
- Tackling CARS Skill 1 questions

Subjects

- Critical Analysis & Reasoning Skills Biology
- Biochemistry
 Organic Chemistry
- Psychology & Sociology

WORKSHOP 8

Topics

- Metabolism
- Organic Reactions
- AAMC Targeted Practice

Subjects

Biochemistry
 Organic Chemistry

LESSON 8

Topics

- Pacing in CARS
- How to read experiment-based passages and address associated questions

Subjects

- Critical Analysis & Reasoning Skills · Biochemistry
- General Chemistry
 Organic Chemistry

WORKSHOP 9

Topics

- Electricity & Thermodynamics
- Chemical Kinetics & Thermodynamics
- AAMC Targeted Practice

LESSON 9

Topics

- Intermediate figure analysis in sciences
- How to deal with motivation and stress while preparing for MCAT

Subjects

General Chemistry • Physics

WORKSHOP 10

Topics

- Solutions & Equilibrium
- Senses
- AAMC Targeted Practice

Subjects

- Psychology & Sociology · General Chemistry
- Tackling CARS Skill 2 questions
 Subjects
- Critical Analysis & Reasoning Skills
 Physics
- Organic Chemistry · General Chemistry
- Biochemistry

LESSON 10

Topics

- Intermediate math and formula strategies in sciences
- CARS midway review and drill practice.

Subjects

- Critical Analysis & Reasoning Skills · Biology
- Psychology & Sociology · General Chemistry
- Physics

WORKSHOP 11

Topics

Endocrine System

- Redox & Electrochemistry
- AAMC Targeted Practice

Subjects

General Chemistry
 Biology

LESSON 11

Topics

- Identifying wrong answers in CARS
- Advanced figure analysis in sciences

Subjects

- Critical Analysis & Reasoning Skills Biology
- General Chemistry

WORKSHOP 12

- Topics
- Fluids
- Biosignaling & Bioenergetics
- AAMC Targeted Practice

Subjects

Biochemistry
 Physics

LESSON 12

Topics

- Tackling CARS Skill 3 questions
- Advanced math and formula strategies in sciences
- Overcoming hurdles while preparing for the MCAT

Subjects

- Critical Analysis & Reasoning Skills Physics
- Biochemistry

WORKSHOP 13

Topics

- Lab & Analytical Techniques
- Optics
- AAMC Targeted Practice

Subjects

Physics · Biochemistry

LESSON 13

Topics

- CARS Skill 3 Questions practice drill
- Advanced experimental design strategies in sciences

Subjects

- Critical Analysis & Reasoning Skills Biology
- Psychology & Sociology
 Biochemistry
- Organic Chemistry

WORKSHOP 14

LESSON 14

• A

Topics

- Neurons & Nervous System
- Attributions, Prejudice, Stereotype, Discrimination
 & Inequality
- AAMC Targeted Practice

Subjects

Psychology & Sociology
 Biochemistry

Topics

· Elimination strategies in CARS and sciences

Subjects

- Critical Analysis & Reasoning Skills Biochemistry
- Physics · Psychology & Sociology

LESSON 15

Topics

- Advanced approach to CARS
- Building your post-class plans
- Science practice drill

Subjects

- Critical Analysis & Reasoning Skills Biology
- General Chemistry

WORKSHOP 15

Topics

- Systems Review
- Reproduction
- AAMC Targeted Practice

Subjects

• Biology

WORKSHOP 16

Topics

- Personality & Identity
- Organic Lab Techniques
- AAMC Targeted Practice

Subjects

Psychology & Sociology
 Organic Chemistry

LESSON 16

Topics

- Managing test anxiety
- CARS and Science final strategy review and practice drill
- The test day experience

Subjects

- Critical Analysis & Reasoning Skills Physics
- Psychology & Sociology
 Biology
